- (1) The exemptions in clauses 5(a), (b) and (c) are subject to conditions that,—
- (a) i-Select must not make any investments on behalf of an investor unless the investor has—

 - (ii) determined the investment policy and objectives that are to apply to that investor's Personal Plan on the advice of the authorised financial adviser; and
 - (iii) received from an authorised financial adviser in relation to the composition of their investment portfolio:

- (A) a risk indicator score that is calculated and filled in accordance with clauses 6 to 8 of schedule 4 of the Regulations and is accompanied by a statement in the following form:

“the risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of your investment portfolio assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [*specify a URL for an appropriate page on an internet site maintained by, or on behalf of, the manager or the Retirement Commissioner*].

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

The risk indicator is not a guarantee of your investment portfolio’s future performance. The risk indicator is based on the returns data for [*insert time period*]. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future personalised quarterly reports or personalised annual reports (as applicable).”; and

- (B) a description of the circumstances that the authorised financial adviser is aware of that exist or are likely to arise that significantly increase the risk to returns for the investor, other than circumstances that are reflected in the risk indicator; and
- (C) the annual fund charge; and
- (D) any applicable performance fees; and
- (b) the PDS for the scheme that is given to an investor under section 50 of the Act must be accompanied by an investment options supplement; and
- (c) the PDS for the scheme incorporates the information in the investment options supplement required under clause 6(1)(f), (g) and (h) by reference to the investment options supplement; and
- (d) the investment options supplement must be included in the offer register for the scheme; and
- (e) if the investment options supplement is updated, the updated investment options supplement must be lodged on the offer register for the scheme within 5 working days after the date the investment options supplement was updated, provided that the investment options supplement—
- (i) is only required to be updated quarterly to reflect any changes in the investment options contained in the investment options supplement; and
- (ii) is only required to be updated annually to reflect any changes to the information required by clauses 6(1)(f)(iii), (iv) and (v); and
- (f) the investment options supplement must contain the following information in respect of each investment option, stated in a table—

- (i) description of each investment option currently available and a statement that further possible investment options are available for selection by an investor after consultation with their authorised financial adviser; and

"[Name] invests \$10,000 in a number of investment options. He/She is charged brokerage when his/her funds are invested of $\$(calculate)$ ($[specify]\%$ of \$10,000).

This brings the starting value of his/her investment to $\$(specify)$.

He/She is also charged the management fee, which works out to $\$(calculate)$ ($[specify]\%$ of $\$(specify)$). These fees might be more or less if his/her account balance has increased or decreased over the year and are dependent on the type of investments he/she has selected.

Over the next year, $[name]$ pays other charges of $\$(specify)$.

Estimated total fees for the first year

Brokerage: $\$(calculate)$

Management fee: $\$(calculate)$

Other charges: $\$(specify)$

$[Name]$ will also be charged scheme expenses and, if $[name's]$ investment options include any funds, those funds may be subject to $[additional/further]$ fees (including performance fees) and expenses.

This example may not be representative of the actual fees you may be charged and reflects a mix of investment options at the maximum management fee rate"; and

- (h) the investment options supplement must contain the following information included at the back of the investment options supplement under the subheading "**Understanding the risk indicator**", in the following form:

"A risk indicator in relation to an investor's investment portfolio will be provided by an investor's authorised financial adviser prior to any investments being made on behalf of the investor.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means there is the potential for higher returns over time, but with the risk of higher losses, and there are likely to be more ups and downs along the way.

To help you clarify your own attitude to risk, you must seek financial advice from an authorised financial adviser. In addition, you may work out your risk profile at [specify an appropriate page on an Internet site maintained by, or on behalf of, I-Select or the Retirement Commissioner].

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

The risk indicator is not a guarantee of a Personal Plan's future performance. The risk indicator is based on the returns data for [*insert time period*]. While risk indicators are usually relatively stable, they do shift from time to time"; and

- (i) a blank or an example risk indicator; and

- (ii) a sentence in the following form:

"See the product disclosure statement (PDS) for more information about the risks associated with investing in an investment portfolio"; and

- (i) in the PDS, the KIS must contain under the subheading "**What is this?**" a statement in the following form:

"WARNING

The law normally requires people who offer financial products to give certain specified information to investors before they invest. This requires those offering financial products to have disclosed information that is important for investors to make an informed decision.

The usual disclosure rules do not apply to this offer because there is an exemption for offers of investments in Personal Plans. When you invest in a Personal Plan you choose the investment options you want in your Personal Plan. As a result of the exemption, you may not have information that allows you to easily understand the overall risks and fees that apply to your Personal Plan. You will also not be able to easily compare an investment in the Personal Plans with other similar managed funds.

Investments in Personal Plans will not be suitable for all retail investors. You are required to receive advice from an authorised financial adviser before committing yourself. Your authorised financial adviser can help you understand your risk profile, assist you to select investments that are suitable for you, and assist you with determining your investment policy and objectives.

We suggest you ask questions and read all documents carefully. You must seek independent financial advice from an authorised financial adviser before committing yourself"; and

- (j) in the PDS, the KIS must contain under the subheading "**What will your money be invested in?**" the following information—

 - (ii) a description of where to obtain the investment options supplement and a statement about the information contained in the investment options supplement; and
 - (iii) a statement about where information on fees for the Personal Plans can be found; and
- (k) In the PDS, the KIS must contain under the subheading "**Where can you find more key information?**" a statement to the effect that no fund updates will be produced in relation to the Personal Plans due to the nature of the Personal Plans but that scheme participants will receive personalised quarterly reports which show the returns, (for quarters ending on or after the date that is the first anniversary of the date on which this notice comes into force) the risk indicator and the total fees actually charged in relation to the investment portfolio in their Personal Plan; and
- (l) the section of the PDS headed "**Description of your investment option(s)**" must include the following information—

 - (iii) a brief description of the information contained in the investment options supplement; and

Dated at Auckland this 24th day of November 2016.

Nick Kynoch
General Counsel
Financial Markets Authority

Statement of Reasons

This notice comes into force on 25 November 2016. The notice is revoked on 24 November 2018. The notice exempts i-Select Limited (**i-Select**), on conditions, from the following provisions of the Financial Markets Conduct Act 2013 (**Act**) and the Financial Markets Conduct Regulations 2014 (the **FMCR**):—

- Section 164 of the Act; and
- Regulation 56(1) of the FMCR; and
- clauses 12, 18, 23, 26, 27, 28, 32, 33, 34, 36, 37, 38, 39(2)(b), 52(1)(b), 52(1)(d), 53, 54, 80(4) of Schedule 4 to the FMCR; and
- regulation 9 of the Financial Markets Conduct (Fees) Regulations 2014 to the extent that it requires a fee to be paid under Schedule 3 of those Regulations on the lodgement of a PDS or a confirmation notice for that scheme.

The Financial Markets Authority (**FMA**), after satisfying itself as to the matters set out in section 557 of the Act, considers it appropriate to grant these exemptions because:—

- The exemptions recognise the difficulties faced by i-Select as fund manager of a self-select scheme in complying with the disclosure requirements of the FMCR. It also recognises the uniquely high fee burden i-Select would face in relation to a self-select scheme given the requirement for lodgement fees to be paid on a 'per fund' basis. In the absence of the exemptions, i-Select would be required to comply with disclosure requirements that are likely to result in a high compliance burden (and compliance costs) without providing useful information for investors that will help them to make decisions relating to financial products:
- the exemptions require investors in Personal Plans to be advised by an authorised financial adviser and provides for investors in Personal Plans to have access to more meaningful information relating to the scheme in the PDS and a supplement to the PDS and also for investors to receive quarterly reports containing personalised investor information relating to their own investment portfolio:
- in these circumstances the granting of the exemptions is desirable in order to promote the purposes of the Act, specifically by avoiding unnecessary compliance costs, providing for timely, accurate and understandable information to be provided to investors to assist them with making investment decisions and by promoting innovation and flexibility in the financial markets:
- the exemptions only address the particular difficulties experienced by i-Select as a fund manager of a self-select scheme and continue to require relevant information to be provided at the time of offer and on an ongoing basis to provide for investor decision-making. The exemptions from lodgement fees will be on the condition fees are paid on a basis consistent with lodgement fees for other non-managed fund issuers. The exemptions only apply to a single managed fund where the special structure as a self-select scheme distinguishes it from standard managed funds. As such, we believe that the exemption would not be broader than reasonably necessary to address the matters giving rise to the exemption.
